

Full Name

Label each organism as "Helpful," "Harmful," or "Both." Then explain what you found in your research that illustrates, or tells, how it is helpful or harmful.

Organism	Helpful/Harmful	Explanation (with examples)
Fungi	<input type="text"/>	
Staph bacteria	<input type="text"/>	
Strep bacteria	<input type="text"/>	
Penicillin	<input type="text"/>	
Yeast	<input type="text"/>	
Phytoplankton	<input type="text"/>	
Algae	<input type="text"/>	
Salmonella	<input type="text"/>	
E. coli	<input type="text"/>	

What does a beneficial organism do?

If all beneficial microorganisms disappeared, what would be five effects?
