

Full Name _____

Date _____

Modeling Landforms

Procedure

1. Using wood, clay, or another medium.
2. Based on your research of landforms, decide a landform to model.
3. Construct your landform model and write an explanation of what you've constructed and how it's created in the real world.
4. Your model can be a landform or a landform process.
5. Write your explanation below.

Observation Chart

Landform or process	Explanation and how it's formed.
